CREATE. UPDATE. RENOVATE.

YANALAM is born from a belief that surfaces do more than finish a space—they define it. Rooted in thoughtful design and material intelligence, our laminates are crafted to bring balance, depth, and timeless elegance to contemporary interiors. Every texture, tone, and finish is designed to complement architecture, enhance everyday living, and stand the test of time.

Resistance to cigarette burns	Not worse than 3	✓
Resistance to steam	Not worse than 4	✓
Appearance	Should be free from foreign particles	✓

## SPECIFICATIONS

**Product :**  
High pressure decorative laminated sheet

**Size :**  
1220 mm x 2440 mm

**Conditions :**  
Resistant to Boiling water, Hot oil, Direct heat, Phenol, Mild acid, Mild alkali, Rectified spirit, Ink, Tea, Coffee etc., without splitting, blistering, warping or disintegrating.

**Maintenance :**  
Wipe clean with ordinary soap or household ammoniated liquid detergent. For stubborn stains use diluted organic solvent or stain remover. Abrasive cleaners and wire brushes are not recommended. Metallic & Pearl laminates are fragile and sensitive, hence the company will not entertain any claim on these laminates.

**Note :**  
Samples pasted represent only color/pattern/finish and not actual thickness. Please specify color or design number along with finish.

**Warranty :**  
Company warrants that its products are free from manufacturing defects and that they are fit and suitable for usual purpose, under normal & proper use. The product must be inspected prior to installation and factory liability will be limited to the cost of our product only. We suggest our customers to check the color and finish of the laminate prior to installation. The company will not entertain any complain arising out of color variation after installation. Any complains, due to changes in climate conditions will not be entertained by the company.

Do not use chemicals for cleaning.

Avoid direct sunlight/continuous light. These may cause colour fading.

Extra care required in vertical pasting of laminates sheet as there is possibility of bubbles due to lack of uniform pressure.

Cracking at corners and around cuts may be caused by improper conditioning, improper bonding, poor planning. Avoid all these to prevent cracking at corners.
